

Alaska 1795 - Size charts

Here is a guide to help you choose the right size. All measurements in the size chart are in centimetres.

How do I measure?

Use a measuring tape and measure directly around your body. The measurements in the chart are body measurements, not garment measurements. Ease for movement has been taken into account in the size chart.

Between two sizes?

If your body measurements fall between two sizes, we recommend choosing the smaller size for a tighter fit or the larger size for a more relaxed fit in shirts or trousers.
